About the Workshop: This 2-hour session focuses on all things digital. As your child enters Middle/High School, they are at the peak of their digital media lives where cell phone ownership doubles, video game use explodes, and social media use becomes problematic. The session will cover recommendations for family rules, parental controls, family tech plans, and suggestions for monitoring your teen's digital life.

Parents/Caregivers play a crucial role in providing support and guidance during these critical periods. A snapshot of current trends and concerning applications will be provided to equip you in your digital parenting strategy.

We look forward to seeing you there!

huy tseep q'u (thank you, everyone),
